Test Name	Result
SARS CoronaVirus2 RNA RT-PCR	Not Detected
Specimen	Nasopharyngeal and Oropharyngeal swab

Method:

The Real-Time PCR test was performed for detection of SARS and 2019-nCoV pneumonia virus(bat-associated SARS-related Sarbecovirus);no cross reactivity with COV NL63, 229E, HKU, OC43, or MERS

We used from an Internal Control RNA isolation an PCR inhibition. A false positive result is not observed
